## I oppose the TCA proposed extensions

Today at 10:51 AM

[Display errors? Click here to view in browser.](#)

After reviewing the proposals by the Transportation Corridor Agencies (TCA), listening to and consulting with many residents and stakeholders regarding this issue, I believe that the proposed alignments could irreparably harm the quality of life of affected communities. **Therefore, I will oppose the proposed extensions. I will not support any new toll road that doesn't have support from their city elected officials and its residents.**

While the proposed toll road extensions are still that – proposals – it is important for you and your neighbors to share your concerns and get your questions answered. The TCA will be holding a public forum on June 5, 2017, at Saddleback Community College. For more information on the forum: [CLICK HERE](#)
