Fax-949-361-8234

Attention **Backflow Testers**,

The City of San Clemente has made some recent improvements to our Backflow Prevention Program.

Website

We have constructed a Backflow Prevention Program webpage. This will include resources for both testers and water customers. Of particular interest to your business is keeping your contact information current for our City [Certified Backflow Prevention Assembly Tester List](#). You will see a google forms link at the bottom of the webpage. Any time you have a change in your contact information, please resubmit an online [Backflow Tester Registration Form](#). Please do a separate form for each tester within your company. This will improve communication between the City and the Testers, as well as help your business stay connected to the community.

<http://san-clemente.org/departments-services/utility-services/backflow-prevention-program>

Licensing Requirements

As a reminder, in order to test in the City of San Clemente, a tester must hold **both** a current [County of Orange Backflow Tester Certification and City of San Clemente Business License](#). The City of San Clemente will decline test results from Testers not meeting these criteria. For assistance with business licensing contact:

<http://san-clemente.org/i-am-a-/business/business-license>

Test Results

Test results may be mailed, faxed, or emailed. If emailing test results, please try to send those exclusively to backflow@san-clemente.org and not directly to staff addresses. This helps us track records and quickly update device records.

We encourage to visit our webpage and update your contact information as soon as possible. If you have any questions, please do not hesitate to contact me.

Sincerely,

Steve Sprague
Cross Connection Control Coordinator
