The California Beverage Container Recycling and Litter Reduction Act

Flow of Payments under the Beverage Container Recycling Program

Beverage Manufacturer
- Buys beverage containers from container manufacturer
- Fills and sells beverage containers to distributor
- Pays processing fees to the Department of Resources Recycling and Recovery

Consumer
- Buys beverage containers from retailer and pays redemption value
- Returns empty beverage containers to recycler
- Receives refund value

Retailer
- Buys beverage containers from distributor and pays redemption value
- Sells beverage containers to consumer and charges redemption value
- Redeems beverage containers when a convenience zone is unserved

Distributor
- Sells beverage containers to retailer and charges redemption value
- Pays redemption value to the Department of Resources Recycling and Recovery

Recycler
- Receives empty beverage containers from consumer
- Pays refund value to consumer
- Receives CRV and processing payment from processor
- Sells empty beverage containers to processor

Processor
- Receives empty beverage containers from recycler
- Pays refund value, processing payments, and applicable scrap value to recycler
- Receives refund value and processing payment from the Department of Resources Recycling and Recovery
- Cancels used beverage containers
- Sells empty beverage containers to container manufacturer or other end user

NOTES:
- California Redemption Value is paid when a beverage container is purchased. California Refund Value is received when a beverage container is returned for recycling. CRV is used to reference both terms.
- Processing payments are paid to recyclers equaling the difference between the average cost to recycle and the average scrap value received. Processing fees are equal to a percentage of processing payments ranging from 10 to 65 percent.
The California Beverage Container Recycling and Litter Reduction Act
